AMERICAN-BOUND LINER SINKS TWO DIVERS; BRITISH DRIVE BACK ENEMY BELOW ALBERT

PRESIDENT ASKS LABOR TO SUPPORT WAR AIMS

No Controversy Between Em-
ployee and Employer Should
Bar the Way to Victory, De-
clares Wilson in Message

OBLIGATION MADE MANDATORY BY CRISIS

Chief Executive of the Nation
Thanks Gompers and Maisel
for Splendid Assistance of
Union American Workmen

WASHINGTON, June 11.—Pres-
ident Wilson today telegraphed to
the American Federation of Labor and
the American Alliance for Labor and
Democracy, in connection with St. Paul,
Minn., urging renewed efforts of labor
in support of the war program.

The President's telegram to Robert
Maisel of the American Alliance for
Labor and Democracy has its earnest
hope for a successful convention
that will give added strength
to future activities. Called into being to combat
ignorance and misunderstanding
influences, your organization has
done a great and necessary work.
It has aided materially in pro-
moting the unity that proceeds
from exact understanding and is
today a valid and important part
of the great machinery that co-
ordinates the energies of America
in the prosecution of a just and
righteous war.

The war can be lost in America
as well as on the field of France,
and ill-considered or unjustified
interruptions of the essential
labor of the country may make it
impossible to win it.
No controversy between labor
and capital should be allowed to
interrupt it until every instru-
mentally set up by the govern-
ment for its amicable settlement
has been employed and its inter-
mediation heeded to the utmost,
and the government has not yet
instrumentalities wholly fair and
adequate. And this duty to avoid
such interruptions of industry,
wherever they can be avoided
without the actual sacrifice of
essential rights, rests upon the
employer as imperatively as upon
the workman.

No man can afford to do in-
justice at any time, but at this
time justice is of the essence of
the national defense and contests
for any sort of advantage that at
other times would be justified
may now jeopardize the very life
of the nation.

CONGRATULATIONS ARE CONVEYED

To President Samuel Gompers,
President Wilson sent the following
telegram:

"Please convey to the thirty-eighth
annual convention of the American
Federation of Labor my congratu-
lations upon the patriotic support which
the members of your organization
have given to the program of the
nation in the past year, not only in
the trenches and on the battlefield,
where so many of our younger men
are now in uniform, but equally in the
factories and the shipyards and
workshops of the country, where the
army is supported and supplied by
the loyal industry of your skilled
craftsmen.

"We are facing the hardships of
the crucial months of the struggle.
The nation can face them confidently,
assured now that the intrigues of the
enemy can never divide our united
means of those industrial quarrels and
class dissensions which he has tried
so diligently to foment. In these days
of trial and self-sacrifice the Ameri-
can workman is bearing his share
of the national burden nobly. In the
new world of peace and freedom
which America is fighting to establish
his place will be as honored and his
service as gratefully esteemed."

WILL STAND BY RUSSIA, HE SAYS

The President referred to his de-
claration that he intended to stand by
Russia. "We cannot make anything out
of Russia," he said. "We cannot make
anything out of standing by Russia
at this time—the most remote of the
European nations, so far as we are
concerned, the one with which we
have had the least connection in trade
and advantage—and yet the people
of the United States rose to the great
question as to no other that I made
in that address. That is the heart of
America, and we are ready to show
you by any act of friendship that you
may propose our real feelings toward
Mexico."

Special Draft Call For 9000 Men Is Sounded

BY ASSOCIATED PRESS.
LEASED WIRE TO TRIBUNE.

WASHINGTON, June 11.—
Nine thousand white draft reg-
istrants qualified for special
limited military service were
called for today by Provost-
Marshal General Crowder.

They will be put to work in
the military aeronautical corps
of the army and will be sent to
Vancouver, Washington, to get
out materials for airplane pro-
duction.

Porto Rico and Hawaii were
called on by Provost Marshal-
General Crowder today to fur-
nish 17,000 draft registrants for
the national army.

Porto Rico was asked to send
on June 20 and July 1, 12,468
men to Camp Lascasas, San
Juan.

Hawaii was directed to send
4336 to Fort Armstrong, Hono-
lulu, on July 1.

SACRAMENTO, June 11.—
California was today called
upon to furnish 2355 technical
and mechanical men to be taken
from physically qualified men
for limited service only, a
telegram to Governor Stephens
from Provost Marshal-General
Crowder stated. The men will
be sent to the military aeronau-
tics corps at Vancouver bar-
acks, Wash. Entrainments will
end June 29. Crowder instructs
local boards to fill their quotas
from Class 2 D and Classes 3 A
and 3 L. Quotas cannot be
filled from qualified registrants
of Class 1. He instructs the
boards to use their judgment,
however, and to avoid induc-
tions of deferred men as much
as possible.

EFFORT AGAIN MADE TO KILL LENINE; FAILS

BERNE, June 11.—The reported
movement in Russia for restoration
of the czar is increasing, according
to reports reaching here today. Peo-
ple are praying in the churches for
his return. A newspaper published
secretly in Petrograd urges his
restoration.

Several attempts have been made
on the life of Nikolai Lenin, the Bol-
shevik premier. The latest occurred
June 2, when the driver of his coach
was shot by a hidden assassin.

WASHINGTON, June 11.—An ap- peal to the United States and the allies to send an expeditionary force to Russia to repel the German in- vaders, forwarded by the central committee of the Cadet party in Rus- sia, was transmitted to the state de- partment today by the Russian embassy.

Finds 2 Boys Unconscious in Pool of Blood

Unconscious in a pool of blood, two
boys, Charles McGill, age 13, his home
at 525 Filbert street, and Thomas
Hase, 7, at 415 Jefferson street, were
found by Al Spangler, Twentieth and
San Pablo, at the corner of Fifth and
Jefferson streets today at 10:30
o'clock.

Spangler placed the unconscious
forms in his automobile and rushed
them to the receiving hospital, where
the McGill boy was found to have
received a fractured skull, while the
Hase boy was suffering from severe
concussion of the brain and a lacerated
lip.
On recovering consciousness, the
Hase boy was unable to explain to Dr.
Lee Smith, who was attending them,
how the injuries occurred. There was
a broken bicycle found near them,
but the boy was so dizzy in his recol-
lection of the accident that he was
unable to say whether they were riding
it or not. No eye witnesses have
appeared, and the authorities are en-
tirely in the dark for any information
as to how the two boys were brought
so near to death. It is believed that
the McGill boy will have a hard fight
for life, but the other boy's condition
is considered not so serious.
The hospital staff believe that the
boys were riding on the bicycle when
they were run down by an automobile
that did not stop to pick up their vic-
tims. The street at the point of the
accident is level, and the boys could
not have been coasting fast enough
to cause such injury by running into
the curb or some other obstruction.

TWO UNDER- SEA BOATS ARE SENT TO BOTTOM HUN GUNS SEEK, BUT FAIL TO HIT, AMERICANS

Steamer and Convoy Ward Off
Repeated Efforts of Enemy's
U-Boats to Attack and Reach
the U. S. Coast in Safety

THREE ASSAILANTS DEFEATED IN TURN

Submersible Finally Disguises
As Fishing Boat and Seeks to
Creep Up On Steamship, But
Is Discovered and Smashed

AN ATLANTIC PORT, June 11.—
Three submarines were at-
tacked and two probably sunk in
European waters by a British liner
and its convoy en route to this
port, according to reports made
when the vessel docked today.

The steamer, with 170 passen-
gers, left an English port a week
ago Saturday.
The first U-boat was probably
destroyed the night of June 1, the
day of departure from Europe.
All the passengers were at dinner.
It was sunk by a depth bomb, the
captain of the liner said.

On the next morning, Sunday, at 9
a. m., a submarine disguised as a
fishing boat approached close to the
liner, so her engines could be heard.
The steamer was too close for her guns
to be used. She tried to ram, but
missed six feet wide of the mark. The
U-boat and the liner then drew farther
apart and the liner's gunners opened
fire from the stern, striking the con-
ning tower and ripped it away. The
submarine vanished.

Two hours later it was stated, a
convoying destroyer stopped suddenly,
signaling "submarine in sight," and
turned back. Racing away from the
steamship it dropped several depth
charges overhead. The inference is
that there was another U-boat de-
stroyed. The ship was met about 150
miles from this port by a United
States hydroaeroplane and a destroyer,
which escorted the liner to port.

Passengers also stated it was rum-
ored aboard the ship that the wire-
less operator had picked up a "S. O. S."
call from an outgoing steamer
which stated she was being attacked
by a submarine. This could not be
verified, as officers of the vessel re-
fused to talk.

Enemy submarines now attempting
to blockade the Atlantic coast are be-
coming bolder in their operations, ac-
cording to information in shipping
circles today. A Brazilian steamer
arriving at an Atlantic port reported it
was pursued by a U-boat off Jersey,
but a United States transport opened
fire on the pirate and made it sub-
merge.

At another port sailors of a British
ship described an encounter with two
submarines in which one of them was
rammed by the Britisher and possi-
bly destroyed.
Some of the Pinar Del Rio crew in-
sisted the submarine that attacked their
ship Saturday was accompanied
by a 600-ton steamer with one fun-
nel painted light gray. This may have
been a "mother ship," or a captured
freighter which the Germans are
looking at their leisure.

There were reports of another mys-
terious "mother ship" off the New
England coast. Boston harbor was
closed for a while.

Well Known Danish Statesman Is Dead

LONDON, June 11.—Frank Ernest
Billie, a well-known Danish diplomat,
died in London yesterday.

M. Billie, who was chamberlain to
the king of Denmark, was born in
Copenhagen in 1832. In 1869, while
minister resident in Washington, he
married a daughter of C. Zabriske,
chancellor of New Jersey. He was a
delegate to The Hague peace confer-
ence in 1899 and was Danish minister
to the Court of St. James from 1900
to 1908.

Sinking Steamer Abandoned at Sea

LONDON, June 11.—The steamship
Chiria has been abandoned at sea in
a sinking condition, it was announced
at Lloyd's today.

French Hold Smashes of Huns on New Lines South and West From Ribecourt

PARIS, June 11.—German forces last night penetrated to within
one mile of the Oise river at Ribecourt, the French war office an-
nounced today. The enemy also reached the Aronde river, within
four miles of Compiègne, representing a maximum advance of more
than seven miles, but were hurled back at this point.

The French not only held the Germans on the west wing, but re-
took the town of Mery.

"On the left the French resistance
prevented the Germans from taking
Le Ployron and Courcelles," said the
communiqué. The French recaptured
Mery.

The center the principal German
effort was on the front from Belloy to
Marquellise (a front of about five
miles.) A heavy German attack suc-
ceeded in reaching the Aronde river
(three miles south of Marquellise),
but the French hurled the Germans
back on the whole front and the
French positions were re-established
south of Belloy, St. Maur and Vaudell-
court.

On the right, there was violent
fighting in the great wood. The
Germans reached Antoval (a mile
west of Ribecourt), obliging the
French to withdraw to a resistance
line west and southwest of Ribecourt.

By HENRY WOOD.
United Press Staff Correspondent.
WITH THE FRENCH ARMIES IN
THE FIELD, June 11.—The Germans
engaged between 20 and 30 divisions
(240,000 to 260,000 men) in the new
drive up to midnight, feeding battle-
ment with prodigious quantities of
ammunition in any previous phase of the
offensive.

Heroic French resistance which
necessitated this constant feeding in

changed completely the entire char-
acter of German tactics from those
which largely insure the success of the
previous drives.

By counter-attacking locally at
every point on the entire front from
Montdidier to Noyon, almost every
minute, the French kept the Hun
first-line troops almost constantly en-
gaged, thus preventing them from
being superseded by waves of fresh
troops.

In every counter-attack the French
succeeded in taking prisoners along
the entire battlefield, who unani-
mously declare the German losses are
enormous.

The battle is accompanied by one
of the fiercest artillery duels of the
war. Owing to the German's slow ad-
vance, they have been able to bring
up their light guns, but their heavies
are still firing from their original po-
sitions, which are constantly under
French bombardment.

Despite the incredible amount of
ammunition expended, the unequalled
masses of men constantly fed in, the
Germans have not been able to make
any advance last night have aver-
aged only five kilometers (about three
miles) penetration a day.

IS AIR SUPERIORITY
WITH ALLIES
The French airmen continue to
maintain an incontestable superiority,
constantly bombarding and machine-
gunning German columns and inflict-
ing the heaviest losses, which the avia-
tors themselves are able to see. The
railway station at Roye was observed
in flames, following a bombardment.

The new German drive is rapidly
becoming the fiercest and most cruel
battle of the war. Into it the Germans
apparently are determined to throw
their last reserves, in a supreme effort
to separate the allied armies and re-
ach Paris before America's full par-
ticipation wrests from them the last
hopes of victory.

Already the steady flow of Ameri-
can, Italian and British reserves into
France, coupled with the terrific
losses inflicted on the Germans since
March 21 practically has wiped out
the numerical superiority with which
the Germans opened the offensive.

It is certain that if the Allies hold
out two months longer, the Americans
at the present rate of arrivals, will
give them an incontestable and crush-
ing superiority.

As a consequence, the French are
assisting in the battle with extreme
energy, equaled only by the prodigious
efforts with which the Germans are rush-
ing up their last resources.

No longer is it a secret that the
French expected the present attack
and were as fully prepared as effect-
ive and material would permit. It is
likewise known that the Germans
knew the French expected and pre-
pared for the attack, yet, facing the
heavy losses which such a situation
necessarily must entail, the enemy un-
der two months longer, the Americans
at the present rate of arrivals, will
give them an incontestable and crush-
ing superiority.

HAIG WINS HALF MILE FROM FOE IN PICARDY

Prisoners and Machine Guns
Captured in Advancing Drive
—Enemy Nets Mile and Half
On 2d Day of Latest Smash

TRENCHES ARE LEVEL WITH HUN CORPSES

Slaughter of Foe Troops Ad-
vancing in Close Formation
Along the Compiègne Front
Is Described As a Massacre

LONDON, June 11.—British troops
attacking south of Albert, between
the Ancre and the Somme, last night
advanced nearly a half-mile on a
front of a mile and a half, Field
Marshal Haig reported today.

"South of Morlancourt (three miles
south of Albert) our line was ad-
vanced last night a depth of nearly
a mile and a half," the statement
said.

"We took 233 prisoners and thirty-
one machine guns.

"Northwest of Morlancourt, south
of the Scarpe and east of the Nieppe
forest we took prisoners and two
machine guns in successful raids.

"The enemy raided a post in Ave-
luy road. One of our men is missing.
"Hostile artillery was active with
gas shells west of Lens last night."

SECOND DAY NETS FOE MILE AND HALF

The second day of the new Ger-
man drive between Morlancourt and
Noyon netted the enemy a maximum
penetration of about a mile and a
half, making their total maximum ad-
vance approximately five miles, it was
indicated in overnight official state-
ments.

The German gains were again con-
fined mostly to the center of the new
front while the wings held. The
French war office admitted the loss
of Mery, Belloy and St. Maur and said
the enemy had gained a footing in
Marquellise and Eilincourt. Berlin
claimed the capture of 8000 prison-
ers and "some guns" on the new
front. The taking of prisoners north-
west of Chateau Thierry, where
American forces are engaged, also was
claimed.

The German effort to advance
along the railway paralleling the
Oise river in the direction of Com-
piègne and Paris has cost the Germans
appalling losses.

FIELD PILED HIGH WITH GERMAN DEAD

The fighting field is piled high with
corpses and trenches are level with
the ground with corpses.

Two German attacks have de-
veloped into a converging movement,
with the chief assaults determined
along the two railway lines. One of
the lines runs southeast from Mont-
didier through Estrees and Arrs, the
other follows the Oise through Ribecourt
and Compiègne. Both lead to Paris.

While the Germans have exerted
tremendous pressure all along the
front, throwing huge masses of fresh
troops into the combat, their only ap-
preciable gains have been upon the
center.

All accounts emphasize two features
of the new action:

One—The brilliant and gallant re-
sistance of the French, who are faced
by overwhelming numbers.

Two—The enormous losses of the
Germans.

Terrific fighting has been raging
along the northern bank of a small,
sluggish stream known as the Matz.
There the Germans have been making
tremendous efforts to break into the
village of Eilincourt, having reached
the outskirts.

The German troops have become
battle weary and their attacks are
shackling in strength. Prisoners
captured by the French were hungry
and exhausted.

On the right and left wings of the
battlefront the Germans have been
attempting debouching with no suc-
cess. They tried to infiltrate French
positions from Thiescourt wood, on
the right, but were thrown back to
their original positions with heavy
losses. On the left flank they met
with no better success.

The fighting front is now about
nine miles from Compiègne, their
chief local objective.

Fourteen tons of bombs were
dropped by British airmen on Sun-
day in raids over Zoubrugges, Brugges,
Chitilles, St. Denis-Western, Ose-
tacker and Marolles, the admiralty
reported today. In all ten raids were
made and fires and explosions oc-
curred. All the raiders returned
safely.

MILLION MEN SOON ARE TO BE AT FRONT

WASHINGTON, June 11.—Millions upon millions of men are being trained for the nation sent across around a quarter of a million men.

This brought the shipments past the 700,000 mark, officials here revealed by Secretary of War Baker. In a few more weeks he will be able to announce the passing of the million mark and it is assumed he will withhold his next statement until he has reached this figure.

The secretary had intended waiting a while longer before making his announcement, but under the inspiration of a talk to French "blue devils" here he decided to publish these figures.

Men in charge of transportation declare the U-boats have had absolutely no effect upon June shipments. Their coming only made these men grit their teeth and say "go ahead." And this is what they are doing. Their theory that there was any relaxation in troops would be a confession of weakness merely playing into Germany's hands.

However, more June tonnage is taken up with supplies than was the case in May. This means that the June troops figures probably will be somewhat lower than May figures.

Gasoline Is Boosted Two Cents On Gallon

The price of gasoline was raised by two companies today from 20 to 22 cents a gallon. These companies are the Shell Company of California and the Union Oil Company of California. The Standard Oil and Associated Oil Company maintained the 20-cent rate, but no assurance was given that they would not meet the higher figure in May. The Shell Company said the advance was in correspondence with the recent rise in crude oil.

Man Is Accused of Theft of Whisky

Following the theft of four cases of whisky from the saloon of Davis & Parker at 124 Twenty-third street last night, W. Tulliver was taken into custody by Inspectors Emigh and Robinson and charged with burglary. Part of the goods was recovered and the police expect to make another arrest in connection with the case.

Starnes, Keokuk, Iowa; Silas N. Teis, Radcliffe, Iowa.

WAR'S WORK FIRST, IS NEW POWER RULE

Priority lists of those industries engaged in work that is connected with war industries were prepared and sent out today by the State Railroad Commission as the basis on which electric power will be allocated. The industries actually engaged in government work, or auxiliary to those engaged in government work, will be served before the private concerns, who will then be permitted to take care of their own needs.

Shortage of hydro-electric power due to the light rainfall this year, and the difficulty of supplying the demand by using the steam plants, due to the excessive price and shortage of fuel oil, has brought about the necessity for the priority lists. The new railroad industry has been directly engaged in government work will have to go without their power until the others are served.

The lists were prepared after conferences were held with representatives of the three great power companies in California, at which the present and prospective supply of electric power was carefully estimated and balanced against the industrial and commercial demands for power during the coming months. It was figured that there will not be enough to go around, and that whatever shortage may arise must be distributed in such a way as not to impair any industry that is serving the government.

The Railroad Commission gave out figures showing some of the results of the shortage of water power and the increased cost of fuel oil. The figures are those of the three great power companies, the Pacific Gas and Electric, the Great Western Power and the San Francisco and Sierra Power. It is estimated by the Pacific Gas and Electric that this company will have to pay \$3,000,000 more for its oil this year than it did in 1917.

The steady advance of oil since 1915, the advance culminating with the 25-cent raise on May 1, is shown by the following facts: Oil sold at 17 1/2 cents in April 1915 it sold at 27 1/2 cents. It dropped in May to 22 1/2 cents, remained stationary until September, when it went back to the April price, and in December was selling at 43 cents. In January, 1916, it was selling at 48 cents; in March, 53 cents; September, 63 cents; and December, 73 cents. In January, 1917, it sold at 73 cents; in June it found it up to 85 cents and December at 98 cents. The first four months of this year it was stationary at 98 cents and on May 1 went up to \$1.23.

BOY SCOUTS TO GO TO YOSEMITE

More than 100 Boy Scouts and men of Oakland Council, Boy Scouts of America, will leave tomorrow morning at 8 o'clock for the two weeks' training camp in Yosemite Valley.

All is in readiness for the trip. Four tons of food have already been sent into the valley for the commissary, and Scout Executive Richards Wilson is there preparing the camp. The trip will be in complete charge of Oakland Council of the Boy Scouts, and under the personal supervision of Assistant Scout Executive George E. Kenelpp, assisted by Scout Masters I. C. Wilson, J. B. Baldwin, H. L. Rucker, John Powers, S. B. Spitz, Bruce Hoover and Directors G. H. Hurd, J. P. Crosser, Rev. Charles P. Clark and Dr. J. Ennart Clarke, camp physician.

The trip was made possible largely through the co-operation of the OAKLAND TRIBUNE and the Butler-Veltch Trucks & Motor Company.

The excursion will be conducted in strict military fashion, military obedience being exacted from the boys during the entire trip. Disobedience of orders, according to Assistant Scout Executive Kenelpp, will mean that the boy will be dismissed from the camp and sent home under escort if necessary.

"Nothing has been overlooked which might add to the safety, comfort or convenience of the boys," Kenelpp said today. "Every precaution will be taken while on the trip and we feel absolutely confident that this camp will be the biggest and most successful camp we have ever conducted. The list of boys going was completed yesterday morning, and as much as we regret it, we have found it impossible to accommodate the large number who have since applied."

The boys will be transported on three huge Butler-Veltch motor trucks. Two days will be taken to get into the valley, the trucks, driven by skilled chauffeurs employed by the Oakland council and recommended by the company, taking the trip in a leisurely manner, and negotiating the grades on the mountain roads with the utmost care. The first night's camp will be made near Mormon Bar, and the start will be made early Thursday morning for the valley, with the expectation of reaching the camp on the floor of Yosemite Valley Thursday evening in time for the evening meal.

Salmon Prices for Spring Pack Fixed

ASTORIA, Ore., June 11.—Salmon canners and representatives of the food administration meeting here have fixed prices for spring pack, Columbia river chinook, at 25 cents per dozen above last year. This will make pound tins \$3.15 per dozen, pound flats \$3.25 per dozen and 2 1/2 pound tins \$3.35 per dozen. The percentage reserve is 25 per cent of the pack and will not permit canners to sell "futures." Fish must be actually in the can before being sold. Canned shad was given a boost of 25 cents over last year's price, being set at \$1.75 per dozen. These prices are fixed for the canners to the wholesale trade.

Adventure Blazes Trail of Sick Man

After being taken to the receiving hospital, where he was booked as a "supposed victim of a railway accident," having been found unconscious, beside the tracks of the Oakland, Antioch & Eastern Railway, Charles Smith, a man aged about 40, was strapped to the operating table for observation, no signs of injury being apparent.

Later the patient recovered semi-consciousness, loosened the straps, and when to one was looking, jumped through the screened window into the garden and escaped. He was later returned by the police, after which friends called for him and took him home. He was suffering from an epileptic attack, and had not been injured by the train.

Tells of Order's Patriotic Work N.D.G.W. Prove Love of Country

(Special to The TRIBUNE.)

SANTA CRUZ, June 11.—Patriotic service of the Native Daughters of the Golden West performed during the past year were told by Miss Grace S. Stoermer, grand president of the order, in her annual report to the thirty-second Grand Parlor, which is in session here.

"The war service work done by our fraternity offers a splendid proof of the patriotism of this order," said Miss Stoermer. "Patriotism—love of country—is one of the cornerstones of our fraternity."

"To the committee in San Francisco, where the most noticeable war service work has been accomplished by the Native Daughters, I express a deep debt of gratitude for what every member of that committee, under the leadership of Elizabeth Douglas, has done, and feel it my duty to let the people of this state know that through their instrumentality an ambulance has been presented to the medical department of the United States army, a billiard table and a piano to Camp Fremont, and field photographs and records to the 362d Infantry at Camp Lewis."

DELEGATES WELCOMED.

Miss Stoermer presented her report at the opening session this morning, over which she presided. The delegates were welcomed last night a reception given by Santa Cruz parlor. Mayor A. A. Taylor of this city turned over the keys of Santa Cruz to Miss Stoermer as a symbol of the hospitality of the citizens. The reception was held at the Casa Del Rey, members of the local parlor, wives of the officials and prominent women of the various clubs being on the reception committee. The local committee is headed by Mrs. May L. Williamson and Miss Corinne Woods.

"California History" was the subject of a short address given by Dr. Charles

HOWITZER BLAST KILLS 1, MAIMS 5

CAMP FREMONT, June 11.—One soldier is dead, five are seriously injured and an army board is investigating to determine the cause of the explosion of a new six-inch howitzer that brought about the tragedy while target practice was under way yesterday.

Private Henry Kuzio was instantly killed by a hurting fragment of steel. The injured are First Sergeant James Gardner, Corporal Walter Banack, Privates Claude Allnutt, Luther Welsh and John Peterson. All belonged to a Battery, Second Field Artillery.

The howitzer was firing its fourteenth shot when it exploded.

E. Chapman, assistant professor of history at the State University. He was the first of a series of speakers who will address the session during the week, Dr. Chapman being president of the session.

Miss College, being scheduled to speak tomorrow on the subject: "California Women, their Heritage and their Opportunities."

An informal ball will be given tonight at the Casino ballroom in honor of the Grand Parlor, and tomorrow the delegates will be entertained at an al fresco fish luncheon on the beach.

D.D.D. Prescription for Eczema

For 15 years the standard skin remedy—a liquid used externally—insures relief from itching, burning, and all the troubles of eczema. It keeps the skin always clean and healthy. Come in and ask us about both.

Low Boiling Points Give Easy Starting

You step on the starter—quickly your engine responds, for the full series of low boiling points in your Red Crown gasoline makes easy starting sure.

Red Crown, the Gasoline of Quality, is a straight-distilled, all-refinery fuel, having the full and unbroken chain of boiling points necessary for steady, dependable power: Low boiling points for easy starting, medium boiling points for quick and smooth acceleration, and high boiling points for power and mileage. Be sure it's Red Crown before you fill.

STANDARD OIL COMPANY
(CALIFORNIA)

Wheat Substitutes Prices Are to Drop

Strict regulation of profits and a drop in the market incidental to the approach of the new crop have forced another substantial break in the wholesale price of wheat flour substitutes such as barley, corn flour and corn meal. These commodities within a few days should be sold to the housewife at prices approximating that of wheat flour.

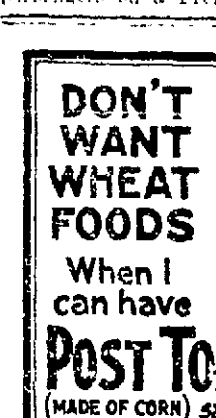

The reduction will be reflected in the price to the public when the present stock held by the grocers becomes exhausted. With the price of the principal substitutes—barley and wheat flour, the food administration feels that the main criticism would disappear which has been advanced as a reason for slackness in observing wheat saving restrictions.

Swedish Steamer Is Sunk; Crew Arrives

AN ATLANTIC PORT, June 11.—The Swedish steamer New Haven, a passenger and freight vessel of 2519 tons gross register, owned by the Swedish-American-Mexican line, was sunk by a submarine May 22 in Mediterranean waters. It was learned here today from telegrams of the crew who arrived as passengers on a French vessel.

Our Self-Help Grocery Is One Year Old

—In line with our constant endeavor to serve our country and our good and loyal customers in a way which our country asked, and in a way which was a saving to our customers and ourselves, we opened (as is our usual custom to always lead)—

The First Self-Help Grocery in Oakland

—Opened first as an experiment to cut the high cost of living—which by asking our customers to serve themselves—pay cash and carry home—we were able to sell our goods at greater reductions which meant greater savings. Now it has proved to be one of our most successful ventures. It has given us the title of—

Supreme Leadership in Low Prices On Groceries

—A reputation for the best at the lowest prices. Now that it has become even more than ever a patriotic duty to conserve many things you heretofore paid for, the self-help idea is growing every day.

—Other stores have followed our example, but our prices have made them prefer KAHN'S.

—Now to show our many customers how greatly we appreciated their co-operation in making this venture a success, we have planned—

AERIAL SQUAD IN SACRAMENTO

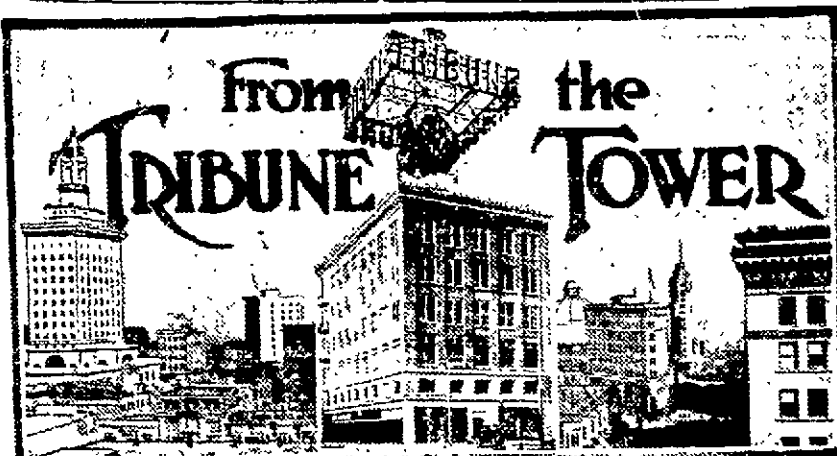

SACRAMENTO, June 11.—Major R. H. Fleet, J. M. A., of Washington arrived today at Mather Field to assume his duties as officer in charge of flying.

Other officers who arrived today are: First Lieutenant S. W. Harkins, First Lieutenant John P. Huntington, First Lieutenant William B. Lauren and Second Lieutenant Gordon L. Harwell.

These officers are all flying officers and came from Ellington Field, Texas.

Second Lieutenant Ray L. Davis of Kelly Field also arrived today. Major Delos Emmons of Washington, who will be commanding officer of the school, will not be here for some days.

Two aero squadrons, the Two Hundred and the Two Hundred and First, are due here tomorrow from St. Paul. The Two Hundred and Eighty-third squadron from San Diego, is already on the ground.

They made a bet of \$100—the doctor and Jones. The doctor won, so Jones gave him a check for \$100. Then Jones thought he would have some fun. So he stopped payment on the check. When the doctor tried to cash the check he couldn't. Whereupon he folded it next to his heart and waited.

Yesterday the doctor mentioned the check to a lawyer he knows.

"I'll give you \$15 for that check," said the attorney.

"Take it," said the doctor, and he chuckled with glee, for real money is real money, any time and place. Then he grew curious.

"What do you want it for?"

"Well," said the attorney, "I owe Jones \$100 office rent. I am going to give him this check."

The doctor rose and his eyes lit up with a gleam.

"Come," he said softly. "We will go out into the world together and spend this \$15. It's a little like that demands a celebration."

IF A FISH CAN'T SEE, IT'S EASY TO CATCH!

When you go fishing for trout in a deep, quiet pool and the fish don't bite, use the formula adopted by Perry W. MacDonald from the Indians. MacDonald said that he never could figure how the Indians coaxed the fish to be so willing to get caught, and so one dark night recently while he was up in the high country he stole out to the pool from which he had seen the Indians come laboring under their catch to see how they did it. Hid in the brush he watched them, as the dawn came, beat a sack of walnuts until the juice oozed out through the sack. Then they tied the sack and threw it into the pool. The walnut juice diluted the water and puckered the eyes of the fish so they had to come to the top to see, when the Indians straddled a log and scooped them up with their hands.

Perry also has other tales; in fact he is the real Katzenjammer kid when he is on the stream. One of his favorite sports is to cut a mirror in the form of a fish and lodge it in a ripple of swift water. The sun shining on it makes it look like a fish lying between the rocks and down come the King Fishers with a wild swoop and butts his beak against it. Twice he does this, and then he goes and sits on a tree and swears in seven languages.

"BAH JOVE!" SAID THE BUYER; HE BOUGHT!

Passersby started and gasped in amazement at the county exhibit, on Thirteenth street, today, at the sight of two 200-pound men astride of small toy handcars, rapidly driving their diminutive conveyances about among the exhibits.

Some said it was a bet.

Some said they'd gone crazy with the heat.

Others thought the wine exhibits must have been opened.

But no one knew that the result of the wild ride was that a

little toy car, called, is to be shipped to Australia.

Brucan, an Australian buyer, arrived at the Hotel Oakland on a business visit, and dropped into the county exhibit to see Edwin Stearns and look at such manufactured articles as he thought he could use.

O. S. Orlick and H. L. Atkinson, the manufacturer of the toys, were there.

ALADDIN'S MAGIC HAS NOTHING ON THIS OHIO WIZARD

Discovers drug which loosens
sore, touchy corns so
they lift out

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poisoning, are now told to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the finger.

This new ether drug is the recent discovery of a noted Cincinnati chemist. It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

COHAN FUN FARCE FULL OF 'JAZZ'

The great American article known as "Jazz" sticks out all over in the George M. Cohan fun farce, "It Pays to Advertise," and Crane Wilbur revealed in the fun at the Macdonough yesterday before two merry crowds that just named themselves into the theater till there wasn't much more than room to breathe.

"It Pays to Advertise" was the magnet that pulled up the theater chairs at the Macdonough on Sunday afternoon and evening, and Crane Wilbur must be given credit for picking the artist, fastest and funniest place that George M. Cohan ever staged as the bill for his farewell week at the Mac.

The crowd's eagerness to have heard all about the fancy rifts that were promised from the merchants of Oakland and were there to find out whether "Jazz" was to advertise.

These present probably were bait for the crowds. Anyway, the interest seemed to be at fever heat when Wilbur gave away hats and candy and coffee and

corsets and rockers and hats and gloves and condensed milk and shoes and umbrellas and cigars and cigarettes and mineral water and crackers and a host of other things, and announced that "The Tribune" was co-operating with the fun.

TEACHERS GIVEN INCREASE IN PAY

High school teachers with two years or more experience will receive an increase of \$10 a month in salary through action of the Board of Education last evening in adopting the new schedule for general salary increases. Assistants are raised from \$1080 a year to \$1320.

The schedule ranges from \$1500 for three-year teachers to \$1740, the top of the scale. Under this schedule the high school pay will be considered six hours in length. Teachers in the evening high schools will receive \$3.00 for two and one-half hours' work for time actually served.

The board accepted the resignation of Harry Bridgman, purchasing agent, to take effect July 1. Bridgman is leaving the city to accept a similar position with a local industrial concern.

U. C. Plans to Train Nurses Special Courses Are Arranged

BERKELEY, June 11.—To meet the call for nurses and other women assistants in hospitals and government laboratories, special laboratory training will be offered by the University of California during the months of July, August and September. The special courses are designed for women who desire to serve as technicians or assistant bacteriologists in cantonments, government laboratories or hospitals or those desiring to enter the nursing profession.

The proposed work is offered by the University of California medical school in co-operation with the George Williams Hooper foundation for medical research and will be given under the auspices of the university's summer session. It will be limited to 35 applicants having the necessary prerequisite training. Instruction will be given in the laboratory of the medical school, Second and Farnsworth avenues, San Francisco. The instruction will comprise a practical course in laboratory technique. Intensive training will be offered in order to meet the requirements of the army hospital laboratories, instruction will be

divided into two groups as follows: Group 1 is designed for college graduates and high school graduates of special ability with training in biology and elementary bacteriology. This group will be limited to the first 25 applicants fulfilling the requirements.

Group 2 is designed for high school graduates and will be limited to the first 10 applicants.

The instruction offered group 2 will be elementary as compared with the specialized work required of students in group 1. Students of both groups will be required to work in the laboratories from 9 a. m. to 5 p. m., Monday to Friday of each week. Saturday morning will be reserved for a review of the work done during the week. A series of systematic lectures to occur daily, excepting Tuesday and Saturday, accompanies the practical work. The lectures will cover in detail the following broad subjects: general bacteriology and epidemiology, diagnosis, specific therapy and prophylaxis of communicable diseases; water and milk sanitation; chemotherapeutic treatment of

NO GLOVES, NO REFEREE, BUT SOME FIGHT

An argument over the finances of the Pileburg Improvement Club resulted in a fight between School Director Harry Boyle and the club treasurer, William Bray, a court house janitor, last night at the club headquarters, in which chairs and desks and ugly words flew about with considerable effect.

Boyle is said to have questioned Bray's veracity, following some statement by the latter as to who was responsible for the club's financial failure, which statement did not give the credit to the school district.

Boyle is said to have called Bray up and Boyle took off his coat. After the mixup neither of the participants showed any serious marks of battle.

Bray says he will challenge Boyle to a fight for the benefit of the Red Cross, and expresses confidence that he will be able to get away with the belt.

"Boyle was talking fresh to me and I had to tell him," he explained when asked why he didn't take home more decorations. But he sure did good janitor service with his clothes.

"I didn't want to hurt him," said Bray. "That's why he didn't take home more decorations. But he sure did good janitor service with his clothes."

Efforts to locate Boyle and get his version of the fight were unavailing today.

Income Taxes Must Be Paid by June 15

Notices of assessments of income and excess profit taxes payable at the office of the Internal Revenue collector not later than June 15, have reached their destinations in this district, the last of many thousands having been sent out several days ago.

Collector Wardell said today all Federal income and excess profit taxes not paid on or before that date will be subject to the penalty and interests provided by law. He further suggests to taxpayers that if for any reason they have failed to receive an assessment notice, they should immediately protect themselves by bringing in their duplicate returns and paying their tax upon that showing.

The collector made it clear that failure to receive assessment notices could not be taken as an excuse for non-payment of the tax.

"Peaches" a Hit at Bungalow Theater

The new bungalow theater on Tenth street, near Broadway, formerly the Columbia, opened Sunday to crowded houses. The theater is cozy and comfortable.

Roy Clair and his company gave an excellent performance of "Peaches," a musical comedy.

New scenery and bright, clean costumes of the chorus girls were attractive. Of the principals Clair, a light comedian, scored a clean hit; his jokes and quips were absolutely clean. Miss Judith, Miss Rich and Sandberg were exceptionally clever and the twenty singing and dancing girls are all young and pretty and display much talent in both song and dance.

Clay Puts Damper On Firemen's Hopes

City Auditor I. H. Clay has thrown a wet blanket upon the hopes of the members of the fire department as raised by Commissioner Jackson when he introduced an ordinance approved by the city attorney providing that the city pay \$120 a year towards defraying the expenses of firemen's uniforms. Clay announced to council today he is not entirely in accord with the opinion of the city attorney which apparently gave the way for the allowance and that further, it would be necessary under the charter that bids be called for the furnishing of the uniforms. City Attorney Mori reported to Commissioner Jackson that in his opinion the city could either furnish the uniforms or their equivalent in cash, payable semi-annually.

War Trophies Show Ad Club Lunch Topic

The coming National Advertising Men's Association convention and the War Trophies Show were topics at the luncheon today of the Advertising Club of the Chamber of Commerce. Llewellyn Pratt, head of the arrangements committee of the show, was the guest of honor. The club's significance to the West, Arthur Bennett, author and creator of the "Major Miles" stories, told of the show, in the arrangement of which he is co-operating under the direction of the gov-

BLAME I. W. W. FOR FLOUR MILL FIRE

PITTSBURGH, June 11.—Members of the I. W. W. are blamed for the fire that completely destroyed the plant of the Pittsburgh Flour Mill and its contents, causing a total loss of approximately \$50,000. The plant was engaged in government work and was owned by the San Francisco Milling Company, officials of which say that the loss of the machinery is the most serious effect of the fire.

The fire started shortly after midnight yesterday, and efforts of firemen and volunteers were fruitless, as the whole upper part of the structure was ablaze before the firemen arrived. There were large stores of wheat and barley, and a considerable quantity of flour stored in the buildings.

Sheriff Veale of Contra Costa county and Federal Intelligence Department operatives are conducting the investigation. Sergeant John Marylin, also of the War Trophies Show management, was a guest of honor. Carl Brockhagen presided.

Every child and grown-up, too, should have a Home Safe. It will do much to encourage the Habit of Saving and may be the means of creating a cordial and helpful friendship with the strongest bank in this city.

NEW SOCIAL LECTURE LEAGUE

"It reads like a Story Book," is the way one of America's most happily married society leaders opened the subject of her remarks on Hair Culture, at the first annual lecture of her newly inaugurated Course on Theology Today at the Fulton just outside of New York City.

"I have been a great outdoor enthusiast all my life and I make it a rule to do without my hat whenever possible, both in the daytime as well as evening. Jack, my husband, some years ago remarked that I would have to probably give up my running about bareheaded now that I was getting a full gray. But I am not to be outdone simply by a few more gray hairs. I went right to the next reliable authority I could get on the subject. The result was I avoided putting a lot of harmful dyes on my hair and I began using a Hair Color Restorer called Q-Ban and in no time Jack had to confess he didn't understand how my hair got so beautiful. Was I dressing it different, or what?

"You may rest assured I haven't told him anything about it, although he very often remarks my hair certainly does look fine. Q-Ban is our little secret."—Advertisement.

BOGUS REVENUE OFFICERS AT WORK

Complaints have reached the Internal Revenue Bureau in Washington of the activities of impersonators of Internal Revenue officers in various parts of the country, according to telegraphic advices received by Collector Justus S. Wardell and Revenue Agent in charge, W. W. Anderson.

Immediate and effective steps will be taken to protect the taxpayers and vigorously prosecute these imposters, it was announced.

"The attention of the Government officers is specifically called to persons who in selling a farmer's account book are said to be using the name of 'war tax agent' in an attempt to force the sale of the book.

"The activities of these imposters," says the Commissioner, "coming as they do at a time when special appeals are being made to the farmers of the country to pay their income taxes, are particularly objectionable, and it is the duty of every officer and employee of the Internal Revenue Service to assist in bringing before the proper authorities the facts in connection with such practices.

"Taxpayers are warned to assure themselves that persons seeking information regarding their income tax statements are authorized officers of the Treasury Department. Any person using the name of an Internal Revenue officer in an attempt to sell some account book is reported to the nearest revenue agent or collector for investigation. The penalty for impersonating a revenue officer with wrongful intent is a fine of not more than \$1000 or imprisonment for not more than three years, or both."

To Give Course On Rehabilitation Work

Miss Eleanor Barrows of Berkeley, Secretary of the Smith College Club of Northern California, has received word that an eight months' course is to be offered in Northampton, Mass., to prepare college graduates and social workers to assist in the rehabilitation of soldiers suffering from "shell shock" and other nervous and mental disorders.

The academic instruction will be given at Smith College from July 8 to August 31. Admission to the Smith College Training School is contingent upon agreement to complete the entire course within six months of practice work following immediately upon the eight weeks at Northampton. The major studies in the course will be sociology, including methods of social case work, psychology and psychiatry. Minor studies will include hygiene, occupational therapy, military usage and the writing of records and reports.

Applications should be made immediately, as the time before the opening of the school is short. Address all correspondence to the director, Miss Mary C. Jarrett, Psychopathic Hospital, 74 Fenwood Road, Boston, Mass.

Miscreants Brand
Face of Small Boy
VISALIA, Cal., June 11.—Why unknown parties burned the figure ten on the face of the young son of C. E. King of Strathmore is the question the sheriff's office is trying to solve today.

While the child slept some one entered the King home and, using acid, burned the numerals "10" deeply on the boy's face. King and his neighbors have been active in Red Cross work and the authorities are inclined to believe the act to the cruelty of unprincipled persons.

Standard Oil Head Is Called by Death

RICHMOND, June 11.—James F. Eaton, well known Standard Oil department head for the last few years, died last night at his home in Richmond, Virginia, of a lingering illness. He is survived by his wife, Mrs. Amelia Eaton and two sons, Lewis C. and Lawrence F. Eaton, the latter being stationed at Kellyfield, Texas. The body is at the Curry Undertaking parlors awaiting funeral arrangements.

Woman Auto Driver Hits and Kills Man

Struck by an automobile driven by Mrs. Jessie C. Giannini of 1904 Castro street, Leo N. Nunn, instantly killed at Sixth and Webster streets last night. Mrs. Giannini was arrested and held pending hearing of the case in the police court following the coroner's inquest.

RIVET RECORD IS GIVEN TO LOCAL YARD

Announcements from Washington today that contracts for eight concrete ships have been let to be constructed at Government Island, the new shipbuilding plant in the Oakland estuary, and that the Union plant of the Bethlehem Shipbuilding Corporation leads all other plants, numbering 45, in the United States in the number of rivets driven per way per week in steel ships, gave new stimulus to the interest in the tremendous shipbuilding expansion centering on the Oakland estuary. The contracts for eight concrete ships are the quota for the local yards in 40 contracts awarded, divided eight each among five yards, two on the Pacific Coast and three on the Atlantic. The locations are Government Island and San Diego, on the Pacific, and Jacksonville, Fla., Mobile, Ala., and Wilmington, N. C., on the Atlantic and Gulf. The ships are to be of 7500 tons each, and will be constructed on plans and specifications prepared by experts who have been making a special study of reinforced concrete shipbuilding.

Surveys are already being run and the position of the eight ships is determined. The five concrete shipyards of the United States are to be in a contest of speed as to the time of completing contracts on the entire allotment. The Emergency Fleet News, published by the United States Shipping Board, the fourteenth number of which has just been received here, carries tables showing the riveting records of the various yards. The Union plant of the Bethlehem Shipbuilding Corporation leads the list of 45 plants with an average during the month of April of almost 50,000 rivets driven "per way per week." The Skinner & Eddy plant at Seattle comes next with an average of between 60,000 and 65,000. The Moore Shipbuilding Company is fifth on the list. The ratings show that the Pacific Coast yards, with an average of more than 33,000 rivets per way per yard lead, having a record of more than double that of the Great Lakes, with an average of between 12,000 and 15,000. The North Atlantic yards reached an average of only 9000, while those of the Gulf and South Atlantic attained an average of less than 6000.

Prof. H. M. Stephens to Address Booksellers

Prof. Henry Morse Stephens of the University of California, will address the booksellers at their regular monthly dinner to be held Thursday evening in the Blue Room of the Hotel Oakland. Prof. Stephens is a well-known lecturer, and will recite selection from his own work. The dinner is open to the public on presentation of tickets which may be obtained from any member of the Booksellers' Association in San Francisco, Oakland or Berkeley.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well and you have a quarter pint of the best freckle, sun-burn and tan lotion and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes, it is harmless.—Advertisement.

One Million Men Will Be Working in Shipyards Of U. S. by 1920 Is Program, Declares Hurley

American Merchant Marine to Equal 25,000,000 Tons

One million men working in the shipyards of the United States by 1920, the expenditure of \$5,000,000,000 for shipbuilding the next two and one-half years, bringing the American merchant marine up to 25,000,000 tons of shipping—this is the program of the United States Shipping Board, irrespective of whether victory comes to Allied arms next year or is deferred, according to facts and figures given out by Chairman Edward N. Hurley in an address last night at the commencement exercises of the University of Notre Dame, South Bend, Indiana.

The shipbuilding operations on the Pacific Coast and the program of the government to provide a Pacific fleet carrying freight and passengers between this country and Japan, Russia, China, Australia and the islands of the South Seas were told by the head of the Shipping Board. Chairman Hurley revealed subjects connected with the plans of the government not previously announced, and also gave some information concerning Germany's apprehension about her after-the-war foreign trade which has not hitherto been published.

PLANS FOR FUTURE. Any feeling that the stupendous shipbuilding activity in the United States is merely a war activity which will end when war needs have been met was dispelled by Chairman Hurley's announcement of the program of steadily increasing production until more than three times the number of men now engaged in shipbuilding shall be employed, and for the gradual increase thereafter to keep pace with the increasing needs of the world. America is to insure the keeping of peace by a command of the seas after the war, according to Chairman Hurley. This war was brought about by the selfishness and ambition for self-aggrandizement on the part of Germany, in the relations of that nation with other nations of the world.

America will provide that the peace of the world shall not be again disturbed in this ruthless manner by having a mammoth merchant marine capable of serving the needs of the world and of maintaining international relationships, and by operating that fleet unselfishly, in fairness to all nations and peoples, so that no nation in future, bent on selfish ends, can compete with the United States.

TO SAFEGUARD NATION. "By mobilizing all the resources of America for after the war this nation will be able to prevent the gathering of raw materials to be used for the purpose of any selfish nation," Chairman Hurley said. "No longer can there be any question that we will have the means, as well as the desire, to safeguard the nations of the world from selfish intrigue and sordid manipulation of the world's markets in the future. The great fleet we are building guarantees the achievement of this unselfish purpose."

That the American merchant marine is to continue in government control is the promise contained in Chairman Hurley's forecast of future development. He said: "Inspired by the enthusiasm and energy of the greatest organizer America has produced—Charles M. Schwab—whose unmatched abilities and splendid services the government recently commended, and Charles Piez, vice-president, who has spent six months developing an organization, our shipyards are getting their gait and setting a pace that would have seemed incredible in those very recent times when steamships required all the way from six months to two years to build."

ONE ILLUSTRATION. "In the launching of the 5500-ton collier Tuckanoe from the Camden yards of the New York Shipbuilding Company in the record time of twenty-seven days from the date of her keel-laying, we have an illustration of what our American shipworkers are capable when they get their stride. "It was before the formation of the present Shipping Board that Secretary

McAdoo of the Treasury boasted that our pioneering upon the seas must in the future be done by an interest having boundless resources; an interest that is not compelled to concern itself with dividends to its stockholders, or returns to its bondholders; an interest that can afford to suffer losses and sustain them for an indefinite period; an interest that has a single purpose—the general welfare of the United States as a whole. Obviously, there is but one such interest, and that is the government of the United States.

"Before the war ocean commerce traveled in bottoms owned and operated by private capital. Now this gigantic merchant fleet which we are turning out is to be controlled by one central body by the greatest corporation in the Western world—the United States of America.

CITES PROGRESS. "On July 1, 1916, we had no tonnage worthy of the name engaged in overseas trade. It is true we had under the American flag a total dead weight tonnage of 2,412,351 tons, but approximately 80 per cent of this was engaged in coastwise and Great Lakes trade.

"On the first of June of this year we had increased the American-built tonnage to over 3,500,000 dead weight tons of shipping. In the eleven months from July 1, 1917, to June 1, 1918, we constructed in American shipyards a tonnage equal to the total output of American yards during the entire previous four years. In short, the Shipping Board has added approximately 1,000,000 tons of new construction to American shipping in the last ten months, for it was not until August 2 of last year that our commanding officer went into effect. We have also added 118 German and Austrian vessels, with a total dead weight tonnage of 730,176. We have requisitioned from the Dutch under the order of the President eighty-six vessels with a total dead weight tonnage of 528,532. In addition we have chartered from neutral countries 215 vessels with an aggregate dead weight tonnage of 953,861. This tonnage, together with the vessels which we have been obliged to leave in the coastwise and Great Lakes trades, gives us a total of more than 1,400 ships with an approximate total dead weight tonnage of 7,000,000 tons now under the control of the United States Shipping Board.

In round numbers, and from all sources, we have added to the American flag since our war against Germany began, nearly 4,500,000 tons of shipping. We are adding to this tonnage rapidly and will continue to do so. It has taken us some time to apply to the shipbuilding industry of this country the principles of organization and progressive manufacturing which have made our other big institutions the marvel of the world.

INCREASE IS STEADY. "Since January of the present year, when our new quantity production ships were well on their way, we have steadily risen in our monthly output until in the month of May we turned out a total of 260,000 tons for that one month alone, making a total for the first five months of the year of 118 steel ships, aggregating 895,000 dead weight tons. Now, in the year ending July 1, 1918, the shipyards in this country built 185,700 dead weight tons of steel vessels of over 1500 dead weight tons. Thus, in the month of May we produced 59,000 tons more than were produced in the entire year of 1915.

"We have established a shipbuilding industry that will make us a great maritime nation. We have today under contract and construction 819 shipbuilding ways, including wood, steel and concrete, which is twice as many shipbuilding ways as there are in all the rest of the shipyards of the world combined. Our program for the future should appeal to the pride of all loyal and patriotic Americans.

"A total of 2101 vessels exclusive of tugs and barges which are being built and will be put on the seas by the Emergency Fleet Corporation in the course of carrying out the present program, with an aggregate dead weight tonnage of 14,715,000.

NEED FAST SUM. "Five billion dollars will be required to finish our program for 1918, 1919 and 1920, but the expenditure of this enormous sum will give to the American people the greatest merchant fleet ever assembled in the history of the world—a fleet which I predict will

serve all humanity loyally and unselfishly upon the same principles of liberty and justice which brought about the establishment of this free republic. The expenditure of the enormous sum will give America a merchant fleet aggregating 25,000,000 tons of shipping.

"American workmen have made the expansion of recent months possible and they will make possible the successful conclusion of the whole program. On July 1, 1917, there were in the United States not quite 35,000 men engaged in the shipbuilding yards. Today we have a force of 290,000 men in the yards and 250,000 men engaged in allied trades. This force will be continuously increased. From all present expectations it is likely that by 1920 we shall have close to 1,000,000 men working on American merchant ships and their equipment.

"The most liberal estimate of this year's output of shipping from all countries, except America, does not exceed 4,000,000 tons. One of the ablest shipbuilders in the United States, Homer Ferguson of Newport News, predicted before the senate committee in January that our tonnage for this year would be 3,000,000 tons in the United States alone. Mr. Powell, vice-president of the Bethlehem Steel Shipbuilding Company, agreed with Mr. Ferguson. Mr. Schwab, the director-general of the Emergency Fleet Corporation, has told me that he is going to prove that both of those good friends of his are somewhat conservative. He believes that the expert prediction of 3,000,000 tons can be exceeded, and I agree with him.

FACILITIES INCREASING. "We have gradually reached the point where we have the facilities for constantly increasing our output. "As I have said, we have a total of 819 ship ways in the United States. Of these 819, a total of 751, all of which except 90 are completed, are being utilized by the Emergency Fleet Corporation for the building of American merchant ships.

"In 1919 the average tonnage of steel, wood and concrete ships continuously building on each way should be about 6000 tons. If we are using 751 ways on cargo ships and can average three ships a year per way we should turn out in one year 13,518,000 tons, which is more than has been turned out by Great Britain in any five years of her history.

"When all our wood, steel and concrete shipyards are thoroughly organized, with a keel laid on each of the 819 ways, our fabricating plants driving ahead at full speed, and employees

Responsibility for the house-to-house canvass to go over the top in the national War Savings stamp drive is to rest with the Oakland Women's Army. In making a plea for the army's aid H. C. Capwell, Alameda county director of the War Savings committee, emphasized the necessity for business methods and the avoidance of overlapping, saying: "I promise the committee of which I am chairman will not authorize or instruct or allow any other body of men, women or children to ring doorbells, or to call from house to house in our residence neighborhoods. I urge this not only in all fairness to the members of the Women's Army, who use faithfully their time and strength for this campaign, but also out of consideration for the householders."

Director Capwell desires to correct a general misunderstanding of the War Savings drive. He says the idea is prevalent that the sale of war savings and thrift stamps is to cease at the end of the drive, June 28, but that this is erroneous. June 28 is National War Savings Day and it is expected that unsold portions of Oakland's allotment will be peddled by that date, but the actual sales will be continued throughout the year as originally planned.

BIDS FOR BANDSTAND. Bids for the construction of the Edoff memorial bandstand in Lakeside park will be opened Saturday. The structure will cost \$15,000.

Scene from "The Blindness of Divorce," a powerful photo-drama to be shown at the American, commencing tomorrow matinee.

Commencing tomorrow, the American will present the William Fox super-feature, "The Blindness of Divorce," a mighty expose of the hane to the nation. On the same bill Viola Dana will be seen in her newest film-play, "The Only Road." Tom Mix in "Ace High" and May Allison in "The Winning of Centuria" will be shown for the last time tonight.—Advertisement.

Local Builders to Share in Prosperity of This Wonderful Work

more thoroughly trained in the art of ship construction, it is estimated that we can turn out from each way more than three ships a year.

KEELS ON PACIFIC. "On the Pacific we must provide sufficient tonnage to meet Russia's requirements. That country has many products which we need. Those articles can be moved in bottoms controlled by us at fair freight rates, and this will be most helpful to the expansion of Russia's trade.

"China also has many commodities which we require, and should receive the transportation necessary to move them, not only to our country, but to other countries that she may desire to sell to.

"That better use can we make of our merchant marine than to assure to these countries the best possible regular steamship service? "That progressive nation, Japan, is rapidly upbuilding her own merchant marine, but the demand for tonnage will be so great on the Pacific that Russia, China, Australia and other foreign possessions will receive service which they have never been able to receive before.

"Our Central American neighbors, Mexico, Guatemala, Nicaragua, Honduras and Costa Rica, must all have the very best passenger and cargo service, as must all of our South American neighbors. We have planned the class of steamers required for this service. The type will serve our Latin American friends in a manner that they have never been served before, and which they are entitled to. With the wonderful resources which these countries have, their products should be distributed in the world's markets and they should have sufficient ships at their disposition and at such rates that will enable them, when it becomes necessary to sell their products in competition with other nations. This will give them an opportunity to receive their share of profits which will permit them to further develop their countries."

With the wonderful resources which these countries have, their products should be distributed in the world's markets and they should have sufficient ships at their disposition and at such rates that will enable them, when it becomes necessary to sell their products in competition with other nations. This will give them an opportunity to receive their share of profits which will permit them to further develop their countries."

SEEK NAME OF MODEST CAPTOR OF GERMAN GUN

WITH THE AMERICAN ARMY IN FRANCE, June 11.—At least two men in the Syracuse brigade, composed of the 8th and 23rd Infantry regiments, have been twice wounded in the last ten days during two different periods in which their units have been in the line. The commanding officer in this sector is seeking to ascertain the name of the man who captured a German machine gun and took the machine gunner prisoner on June 6. The American here was wounded and sent to an evacuation hospital without his identity being discovered, although the machine gun is on display at the post command and the German prisoner has been sent to the rear.

Prisoner Whips U. S. Maligner and Is Freed

CHICAGO, June 11.—Jailed after conviction on a minor charge, Frank Taylor administered a thrashing to a cell-mate who maligner the United States. Federal Judge Landis recalled Taylor to a British recruiting station and enlisted

ONLY 5 DEATHS AT CAMP LEWIS

CAMP LEWIS, June 11.—Health conditions in Camp Lewis continue exceptionally good, according to the report of the division sanitary inspector for the week ending June 6. There were but five deaths in the period—one due to meningitis, previously reported; three due to pneumonia, one of which followed measles, and one from tuberculosis. The communicable disease report for the week follows: Chicken pox, 1 case; measles, 5; measles, 14; measles (German), 2; meningitis, cerebro-spinal, 2; mumps, 31; pneumonia, broncho, 1; pneumonia, lobar, 2; scarlet fever, 3; influenza, 29; deaths, 5. Of the 14 cases of measles 12 occurred among draft men who recently arrived; 20 of the 25 cases of German measles were among the same men. The court and vacated his sentence of one year. Fred Taylor hid himself to a British recruiting station and enlisted

Breuners
Clay at 15th.

Rich, delicious, creamy, at half the cost of cream! And after the first morning you serve coffee with Libby's Milk, your husband won't let you serve it with any other. He will notice its finer flavor at once—he will want it every time.

Now—every California home can have this finer milk

Product of famous Humboldt County (California) pasture lands sent here in sufficient quantity for everybody.

Libby, McNeill & Libby announce that they have now arranged to meet the demand from California for their milk.

Produced, as this milk is, from only the very finest yield of these rich dairy lands it has been impossible, heretofore, to supply all who wanted it.

California women who have, heretofore, been fortunate enough to secure it, found it gave so much richer, so much more delicious flavor to their coffee, and to all their cooking, that they went to any trouble to get it.

They told other women about it, and the demand for Libby's Milk has been so insistent that Libby has now made arrangements to supply all California homes.

All grocers in California now have or can get Libby's Milk. Your grocer has it.

The difference this milk makes in coffee and in cooking

You will never realize what a difference the milk you use makes in coffee and in cooking until you begin to use Libby's Milk. You will be delighted.

Your coffee served with Libby's Milk has so much more appetizing aroma; so much more character and flavor that you will never be satisfied with other milk or cream in coffee—after you have tried Libby's.

All your cooking will have a finer flavor that will make your family think you have learned some special new wrinkle in cooking—will make your guests exclaim over your creamed vegetables, your hot war breads, your puddings.

For Libby's Milk has an individual flavor that gives a new and better taste to everything you use it in.

From famous pasture lands

For fifty years the Libby ideal has been to prepare all their products right where the finest of each kind was to be found. Their peach kitchens are in the sun-flooded valleys of the Golden West. Their pineapple kitchens in Hawaii. Their salmon kitchens in cold-bound Alaska.

Custards made with Libby's Milk are smooth, firm and delicate—with an added, delicious flavor—that will make the children exclaim: "Oh, mother—this is good—what DID you put in it?"

Have the delightful flavor of Libby's Milk in all your milk desserts.

When Libby decided to add milk to the many other foods they prepare for California housewives, they went to the finest dairying district in the United States, the famous pasture lands of Humboldt County, California.

Here the cool, even climate, the rich soil, keep the fields green for the grazing cattle—almost the entire year. Skillful dairymen give their prize heads the most perfect, the most intelligent care.

And right in the midst of this rich milk country, the Libby dairy selects and packs the unusually fine milk, testing it constantly for richness, for purity.

Just the pure, rich milk

Nothing is added to this fine, rich milk, nothing is taken out of it, except more than half of its moisture. It is handled in the most immaculate way; it is sterilized by a special Libby method, so it can be sealed in harm-proof packages; so it can reach your table as pure and fine as when it left the spotless Libby dairy.

This Libby method of handling and sterilizing gives to their milk its delightful flavor—the flavor that makes

its users prefer it to any other milk in coffee, in cocoa and in their cooking.

So convenient! So economical!

Every woman able to secure Libby's Milk was enthusiastic about its convenience. It was always at hand and ready to use! It took up so little room!

And such an economy! Rich, delicious, creamy, for your coffee, at half the cost of cream! Milk to which there is no waste! It keeps pure and fresh until you open the package—then you use it as you need it; and the rest, put in a cool place, keeps for several days.

You, too, can have this finer milk now

Libby wants all women to have this milk that other women are so enthusiastic about. They have arranged to supply all California housewives.

Begin using Libby's Milk today. Have its creamy richness in your coffee, at half the cost of cream. Have it give your cooking finer flavor than it has ever had before.

When your recipe calls for milk, use Libby's Milk and water, half and half. Wherever it says cream, use Libby's Milk undiluted.

Order Libby's Milk from your grocer today.

Send for free book of milk recipes, to Libby, McNeill & Libby, 132 Pacific street, San Francisco.

REPORT URGES CLASSES FOR MISFIT PUPILS

C. N. Shane, attendance officer for the school department, in his annual report to Superintendent Fred M. Hunter, outlines a plan whereby "misfit" pupils who consistently endeavor to make their studies by "playing hooky," may be cared for in special schools located in different parts of the city. Two of these schools, one near the Garfield and the other in West Oakland, would handle about twenty boys each, it is estimated and supervision could be placed in the hands of specialists in reforming wayward lads.

During the year 1100 cases of truancy were investigated, the number of absences from this cause being greater than from sickness.

At present there is a class in the Detention Home for Habitual Truants and it is suggested that this class be extended.

Under the direction of the attendance officer considerable charity work was handled during the year. There were 433 pairs of shoes and 4321 garments distributed. Of the number of children out of school it was found

POPPY ADDICTS NABBED IN RAID OF OPIUM JOINT

Breaking into a dingy room filled with the fumes of burning opium, a squad of police, led by Inspector E. E. Tabor of the State Board of Pharmacy, last night raided an opium den at 372 Seventh street and arrested ten Chinese men.

The raiders seized five pipes and a small quantity of the drug. The Chinese were booked at the Central Station for violation of the state poison law and most of them were released on \$200 cash bail.

They were arraigned before Judge Samuels this morning. Attorney Henry Skinner appeared for the defendants. According to the state inspector the joint had been open but a few days.

that 1326 were unlawfully so, while 1651 were absent on permits.

"In the matter of compulsory cases, that is, those children who are complete misfits in the schools, I feel we should make arrangements whereby some special classes may be arranged for them. The ideal way would be to have a parental farm within the city limits, to which these children could be sent and kept for a while under supervision and instruction, and I earnestly hope in the near future it will be possible to establish and maintain such an institution."

MANY CREEDS AID ST. MARY'S BUILDING PLAN

Led by a subscription of \$10,000 presented by Archbishop Edward J. Hanna, friends of St. Mary's college, comprising Catholic clergy, lay and alumni and persons of other denominations, last night, at a meeting in the St. Francis Hotel in San Francisco raised \$25,700 toward the rebuilding of the institution and pledged themselves to a campaign for the collection of thousands more. The meeting was characterized by intense enthusiasm.

Present at last night's gathering were representatives of other educational institutions of the state, Superior judges, former students and graduates of the college and men and women prominent in every walk of life. Judge Frank J. Murphy presided. The speakers included Rev. Edward J. Hanna, President Benjamin Ide Wheeler of the University of California, Judge Thomas J. Lennon, former Chief Justice Matt L. Sullivan, Jesse J. Lillenthal and Professor Frank M. Jell of Stanford University.

Archbishop Hanna, in his brief talk preceding his donation of \$10,000, paid high tribute to the work accomplished by St. Mary's college in the fifty years of its existence prior to the fire which laid it low.

That any institution has endured that long is a tribute to its excellence," he said. "For fifty years this institution has maintained the high standard of ideals which find reflection in the high national ideals we have placed before the country. We cannot permit an institution of that kind to perish from the face of the earth. It must be preserved that it may hand down to those that come after us the same high ideals."

RELIGIOUS BACKGROUND

"The background of these ideals is wholly religious. Every true democracy has failed in the course of history it is because men forgot their dignity. Religion, and religion only, can teach men the real value of things. And no great force that makes for higher religious ideals should lose its power in our day and generation. We want men of power, zeal, courage, religious principle, to carry on these high ideals. St. Mary's has been in the forefront of this work in California for fifty years and it must continue so."

Judge Thomas J. Lennon, former student at St. Mary's, declared that the institution had won recognition for its sterling curriculum.

"It has taught men to proclaim their belief in their God and their country," he said. "There are St. Mary's boys in the trenches, fighting with the army in a way that proves that the college teachings of loyalty and patriotism are worth while."

Judge Matt L. Sullivan paid tribute to the qualities of the Christian brothers.

And, perhaps, the most important quality without a thought of self," he declared, "has instilled a loyalty to the alma mater that is reflected in national loyalty of a high order. The college deserves continued success."

WHEELER ENDORSES

President Benjamin Ide Wheeler of the University of California also paid a similar compliment to the work of the college and urged the continuance of the college on the ground that war conditions demanded high educational facilities and that there was work for all.

"I come as a neighbor to offer aid," he said. "I help to build up various types of schools. They all have a purpose. They give a man the further away view and help his perspective. My best wishes go to St. Mary's and my appreciation for the zeal, devotion, and splendid men behind it. May God and only good come to the college."

Professor Jell of Stanford, declared

Vanderbilt-Baker Wedding Will Take Place Tomorrow

Latest picture of MRS. ALFRED GWYNN VANDERBILT, who is to marry Ray T. Baker of Oakland tomorrow.

Honeymoon in Private Car to Coast, Is Plan

WASHINGTON, June 11.—The wedding of Mrs. Alfred Gwynn Vanderbilt and Raymond T. Baker, director of the mint, will take place tomorrow afternoon at Mrs. Vanderbilt's country home, Holmwood, Lenox, Mass. Captain Isaac E. Emerson of Baltimore, Mrs. Vanderbilt's father, will give the bride in marriage. The ceremony will be performed beneath the trees on the lawn of the estate. Mrs. William B. Osgood Field, an intimate friend of Mrs. Vanderbilt, has opened Highland House and will entertain some of the wedding guests. Mrs. Vanderbilt's sons, Alfred G. and George Vanderbilt, will remain at Holmwood with relatives during the wedding journey. Mrs. Vanderbilt's private car will be used for the trip, which will be to Nevada and the Pacific Coast.

PLAY ESQUIMAU ON HOT DAY AND SET HAY AFIRE

PLEASANTON, June 11.—It was blistering hot here today. The ice-wagon left the warehouse with 800 pounds of ice. Before it reached the center of town, there was only a wet spot. The tin gutters melted off the houses, tombstones liquefied, and a fat citizen fried in the middle of the street trying to get to a shady spot.

In the middle of this little excitement, "Toodles," aged 7, and "Mary," aged 6, decided to play Esquimaux. They picked on a barn belonging to T. N. Lewis as their igloo or hut, and proceeded to dig out "kale" (kale) and "Oo," said "Toodles," turning up his collar and mopping the perspiration from his nose. "Oo, it's cold!"

"I don't build a fire," said Mary.

So Toodles procured some matches and started a fire in the middle of the hay.

The Pleasanton volunteer fire department was sleeping under a tree when the air grew warmer and he smelled smoke. He arose, looked at the hot, dusty road, thought of fire, thought of the hand engine he had to tote along in the blistering sun, concluded the extra heat was merely the growing ambition of Old Sol, and sat down again.

"Maybe it's a god-darned false alarm anyhow!" And he went back to sleep. The children are still running across Siberia.

The loss is estimated at \$300.

Likes It in East, But Oakland Is Better

Deputy District Attorney Theodore P. Wittschen, sent by District Attorney Peacock to represent the county at the bridge hearing in Washington, took advantage of the opportunity to attend a session of the United States Supreme Court and have himself admitted to practice before it.

But great as everything is going in the east, Wittschen says that the more he saw of the country the better he liked Oakland, California. He says it was hot man Elston wears a Palm Beach suit back there, so much so that Congressmen and fans himself with his straw hat.

UNKNOWN MAN SAVES COUPLE FROM FLAMES

Awakened by a stranger who discovered a lively blaze in the rear of their home shortly after 4 o'clock this morning, Mr. and Mrs. Frank Steiler of 123 East Twelfth street, were rescued from the smoke-filled rooms of the cottage in time to save their lives. The rest of the cottage was badly burned.

Steiler and his wife were asleep in the front part of the house and were nearly suffocated when a man who was passing the place broke in the front door and aroused them. The stranger was not identified in the confusion caused by the fire.

Assistant Fire Chief McGrath, who directed the firemen, stated that the blaze evidently had its source in the basement of the cottage and was probably caused by spontaneous combustion. The fire had a good start when discovered. The prompt arrival of the department held the loss down to about \$200.

Steiler and his wife are recovering today from their experience and their narrow escape. Had it not been for the presence of mind on the part of their rescuer they would have lost consciousness within a short time.

League to Appraise the Value of Poets

The relation of dactylic rhymes to pneumatic rhythms, of recorded penmen to recording volunteers, will be determined at the Palace hotel in San Francisco Thursday, when the Home Industry League will appraise the value of California poets among the state's industries.

The luncheon will be in honor of the poets themselves. Invitations have been extended to Chancellor David Starr Jordan of Stanford, Charles K. Field, editor of Sunset, George Sterling, Fred Emerson, George Edward O'Day, Mrs. Joaquin Miller, Mrs. W. E. Travis and others.

President Baldwin Vale of the league will welcome the poets. Charles K. Field will act as toastmaster. E. B. Rogers will outline the aims of the Industry League.

"Isn't It Great to Have a Whole New Outfit, Celia?"

"It's been ages since I had a new hat and suit and all the other 'fixings' at one time. And it wouldn't have happened this time if I hadn't found Cherry's. Such pretty clothes—and such reasonable prices. And, best of all, such easy terms. I just pay a little down and the balance regularly—a little from your pay check each week when you get it. And good clothes are such a wonderful help, especially in war times when we need cheerful, pretty things more than ever. The store is at 515 13th. Cherry's have a men's store at 528 13th."—Advertisement.

VOTERS' CONTEST

The Alameda County Federation offers a \$50 Liberty Loan Bond for the best and most accurate one thousand word article on the election frauds which occurred in the Alameda County election of 1914. The article should contain the answers to the following questions:

1. What methods were used?
2. Were any arrests made and convictions obtained?
3. Do you believe that the men arrested were working in their own interest or in the interest of some other person or persons?
4. If you believe the latter, give your ideas as to why the others were not arrested and convicted.
5. Why is an independent District Attorney necessary in the trial of men arrested for election frauds?

The Court records and daily papers of that time carry all the necessary data for your article. There are no restrictions on anyone except that he or she must be a resident of Alameda County and registered since January 1st, 1918. The selected article will be published in bulletin form and mailed to Federation members only.

Mail or bring your story to Federation Headquarters before July 1st, as none will be accepted after that date.
